Re: Additional Patient Care Supplies

Beginning 1/5/2022, the following equipment will be added to the "par" stock for every ambulance:

- 70mm OPA
- 24g IV Cath's
- 14fr NPA
- 16fr NPA
- 18fr NPA
- 24fr NPA
- 32fr NPA
- Neonate mask (To be used w/ infant BVM)

In addition, units will be stocked with one (1) 60x90 burn sheet. This sheet covers the same BSA as the previous sheets combined. The ask is that you use the 60x90 sheet sparingly and only for patients who have significant BSA burns. Dry sterile dressings should be used for burns associated with medium to smaller BSAs.

The above mentioned items will be stocked in the following locations:

- NPAs (kit)
 - Airway Bag - Mesh Pocket
 - Diagram #3
- Neonate Mask
 - Packages with Infant BVM
 - Diagram #4
- 70 mm OPA
 - Airway Bag –Mesh Pocket
 - Diagram #3
- 24g Angiocath
 - IV Cath Plastic Case
- Burn Dressings
 - Dodge – C1 Bin
 - International – Burn Kit

Medical Excellence. Compassionate Care.
