How to Connect to the VPN

Note: Make sure your internet is working first by doing a quick search on google.com

Note: Will not work if you are on Medic's Network

- 1. Open the Cisco Any Connect VPN client
 - a. Click on the Start Button
 - b. Click on Cisco folder
 - c. Click on Cisco AnyConnect Secure Mobility Client

	c
	Cisco Cisco AnyConnect Secure Mobility
	Sisco AnyConnect Secure Mobility C
8	E
۵	X II Excel 2016 New
67	
22	New New
۲	Firefox Private Browsing New
Ф	G
	Google Chrome
	🚍 ڬ 👫

- 2. In the Address bar, delete whatever is listed
 - a. Then type in either VPN.MEDIC911.COM or CONNECT.MEDIC911.COM
 - b. Then hit connect

(🕥 Cisco AnyCo	onnect Secure Mobility Client		_		\times
		VPN: Verify your network connection. vpn.medic911.com	~		Connect	
	No Network C	Connectivity				
	\$ ()					cisco

3. In the Next Screen change the Group to HQ_AnyConnect

Cisco	o AnyCon	nect co	nnect.medic9	11.com X
0	Certificat	te Validati	on Failure	
_	Group:	Fire_Ma	rvlis_VPN	U.
		Fire_Ma	rvlis_VPN	1
		HQ_Any	Connect	
			OK	Cancel

- 4. Enter in your username and password
 - a. It'll be the same username/password you use to clock in or log into the pc with

0	Please enter	r your username and password
	Group:	HQ_AnyConnect ~
	Username:	jeffreyd
	Password:	*******

- 5. After you hit OK you will see the VPN go through a series of connection establishment messages. It will then disappear.
- 6. Once connected, it will pop up a message stating that it has connected

7. You can also double check by going to bottom right corner of your screen, click on the Up arrow, and move your mouse over the Cisco Anyconnect icon

8. Now that you are connected you will be able to access your Shared drive S:, Home Drive H:, and any other programs / websites that require you to use the MEDIC network.
